

SCHOLACITY WEB APPLICATION

Administrator Guide

Abstract

This experimental phase release of the Scholacity Web Application User Guide is intended to provide a high-level overview of capability for administrative monitoring of the course selection and registration planning that this application was designed to enable.

WELCOME

Welcome to the experimental phase of this project, entitled “Reducing Cognitive Load in the Course Selection Process to Facilitate Lifelong Learning.” Thank you for your participation.

This brief Administrator’s manual for the Scholacity Web application is intended to help you navigate the system. The Scholacity Web Application is very simple at this point, and the administrative capabilities are limited at this time to observation data and user activity:

- View the available courses grouped by Knowledge area (e.g., Arts and Literature) or grouped by the Day of Week that the course meets,
- View the available learning outcomes derived from course descriptions,
- View the aggregate contents of users’ registration planners.

OVERVIEW OF INTENDED WORKFLOW

SCHOLACITY GROUP

SCHOLARSANONYMOUS GROUP

GETTING STARTED

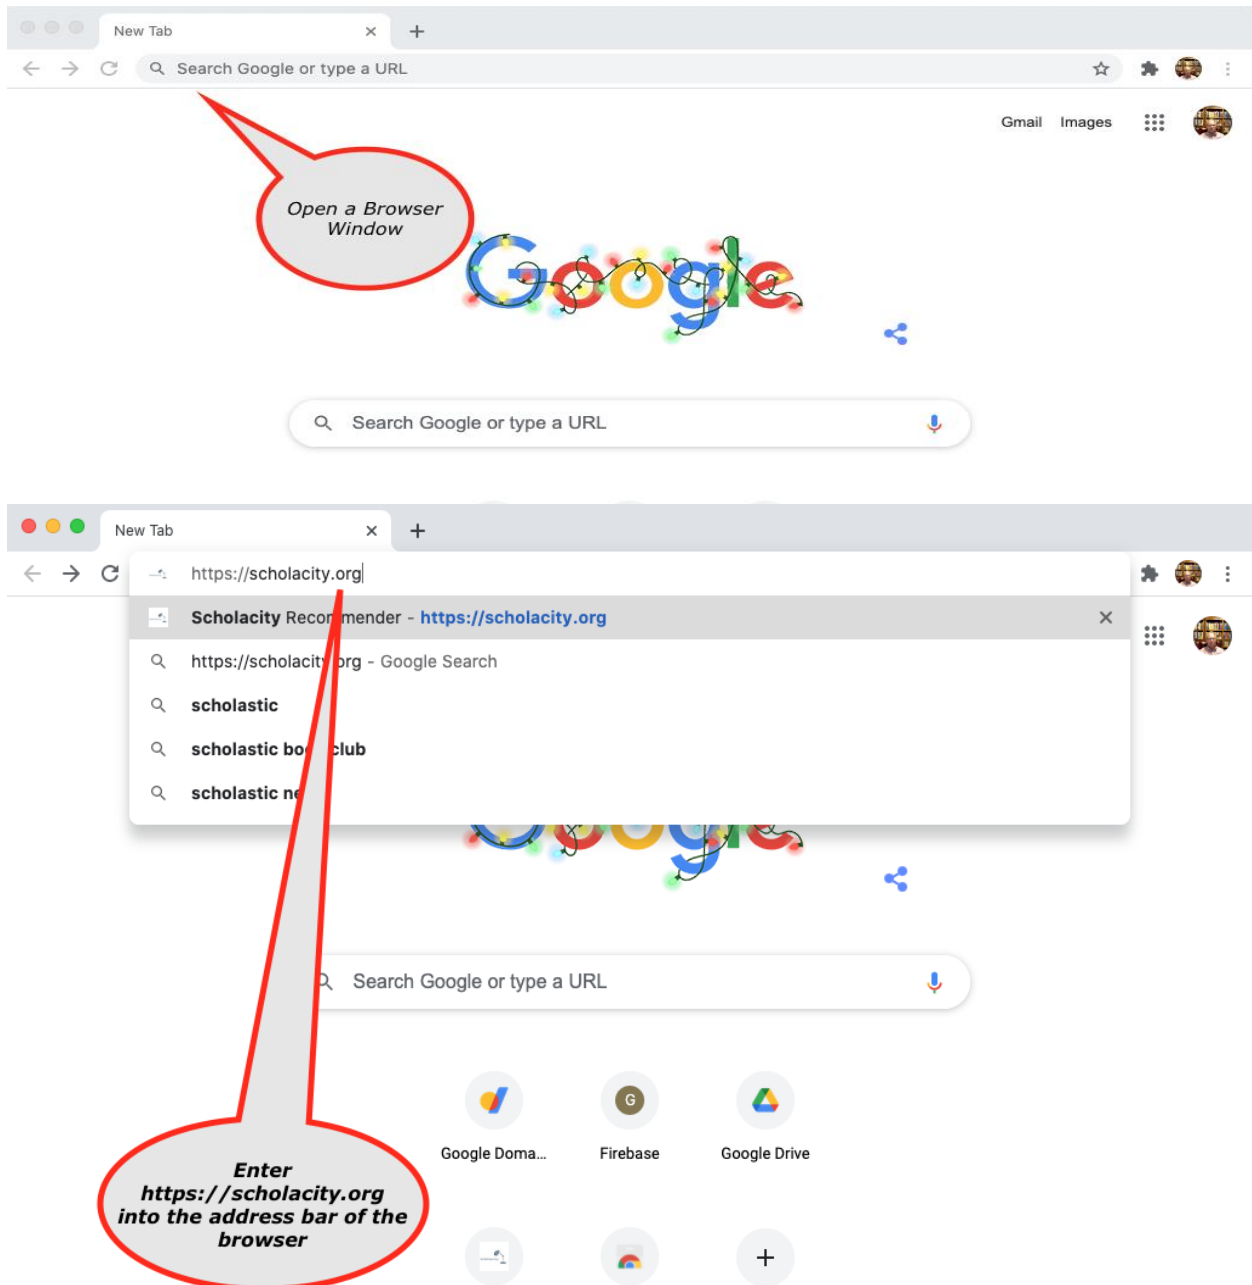

Clearing Cache on Mobile Devices

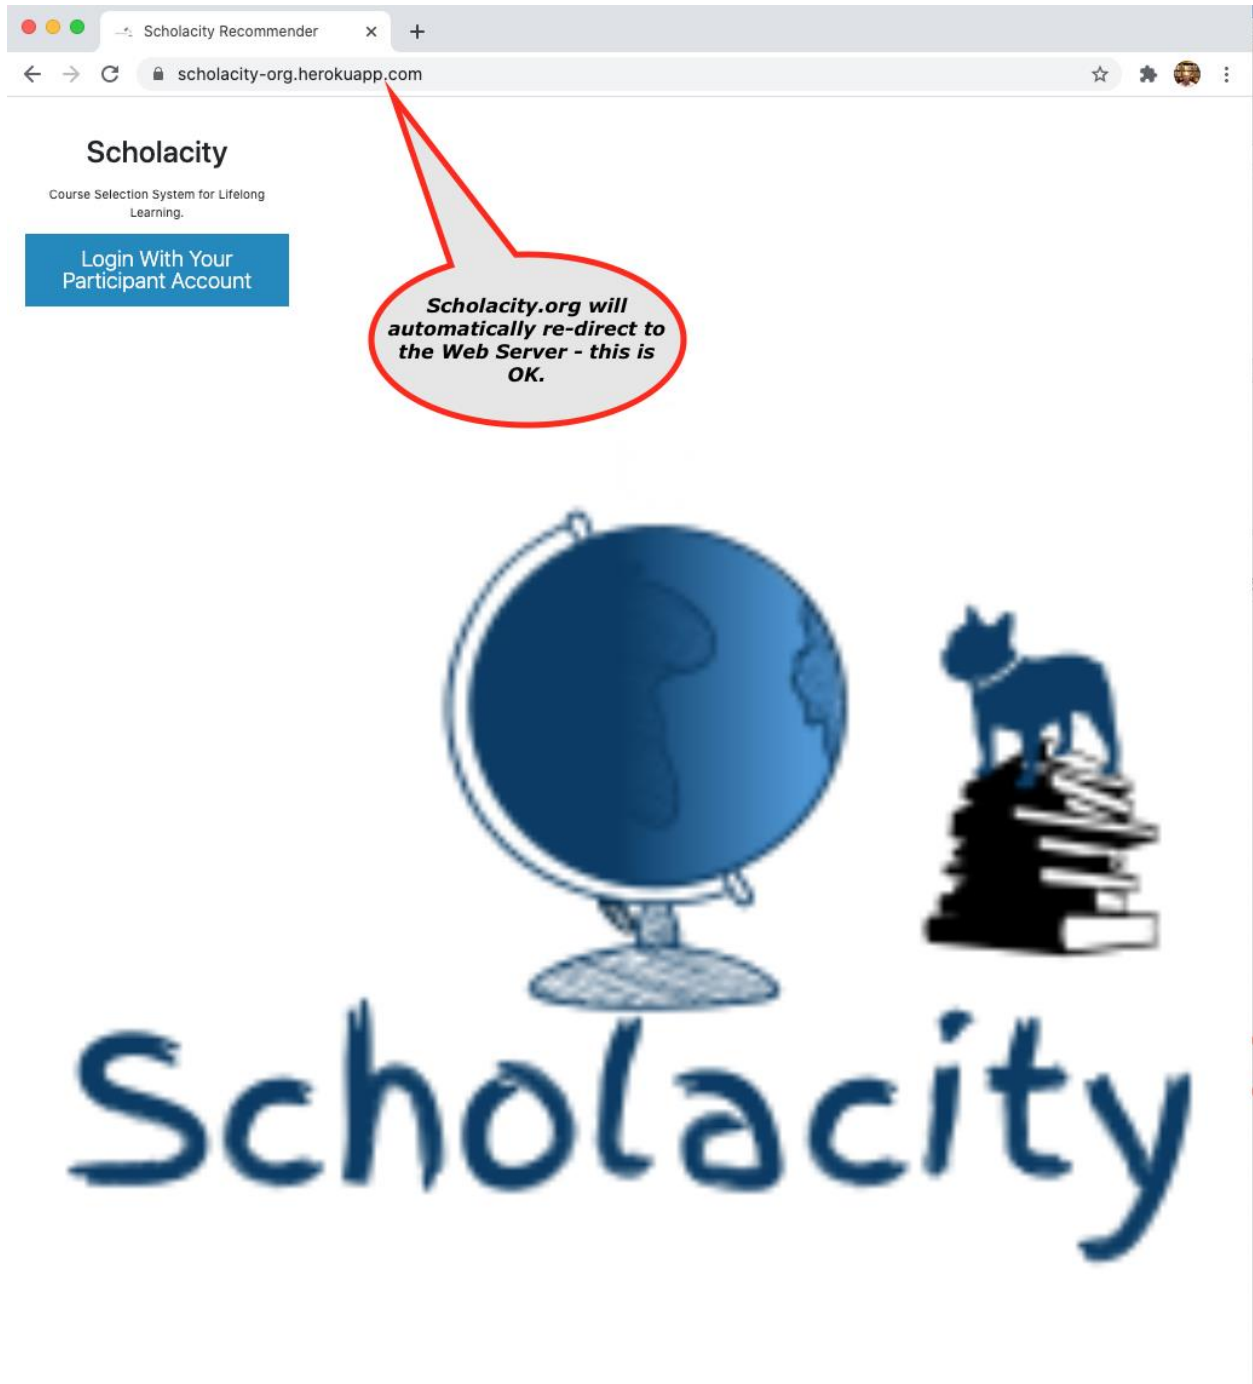

If you are working on a mobile device, such as an iPhone, iPad, or Android Device (phone, Kindle Fire, etc) then before you attempt to log in to this application you must clear your cache. Otherwise, Google Authentication will attempt to log you in to the Scholacity Web application using the Google Account with which you last logged into a site, such as your personal UWF email account. The Scholacity Web application will not allow you to log in with anything other than your participant account – this is to ensure your anonymity during this experiment – however Google Authentication is not sophisticated enough to pick up on the failure to log in with the cached account and so will simply keep attempting to use the same existing login. If you are going to log in to Scholacity on a mobile device, please consult Appendix A (iPhone) or Appendix B (Android) as appropriate for instructions on clearing your cache before proceeding.

Navigating to the Web Site

To use the Scholacity Web Application to select your courses, simply open up a browser on either your desktop or a mobile device and in the address bar of the browser enter:

<http://scholacity.org>

Logging In

Click the Login button, labeled “Login with your Participant Account.” You must log in with your Participant account. Otherwise, the system will immediately log you out and remind you to use your assigned participant account.

Scholacity

Course Selection System for Lifelong Learning.

Login With Your Participant Account

The image shows a web browser window titled "Sign in - Google Accounts". The address bar displays the URL: `accounts.google.com/o/oauth2/auth/identifier?response_type=code...`. Below the address bar, there is a "Sign in with Google" header. The main content area features the text "Sign in" followed by "to continue to [scholacity-org.firebaseio.com](#)". A text input field labeled "Email or phone" contains the email address "lladmin@scholacity.org". A blue callout box with the text "For example" points to this input field. Below the input field are links for "Forgot email?" and "Create account". A blue "Next" button is positioned to the right of the input field. At the bottom of the page, there is a language selector set to "English (United States)" and links for "Help", "Privacy", and "Terms".

Login With Your Participant Account

Enter your Password

The image shows a web browser window titled "Sign in - Google Accounts". The address bar displays the URL "accounts.google.com/signin/v2/challenge/pwd?response_type=c...". The page content includes the Google logo and the text "Sign in with Google". Below this, it says "Hi Leisure Learning" followed by a red circular profile icon and the email address "lladmin@scholacity.org". A message states "To continue, first verify it's you". There is a text input field labeled "Enter your password" containing a series of dots. A blue callout bubble points to this field with the text "Enter your Password". Below the password field is a checkbox labeled "Show password". A link "Forgot password?" is on the left, and a blue "Next" button is on the right. At the bottom, there is a language selector set to "English (United States)" and links for "Help", "Privacy", and "Terms".

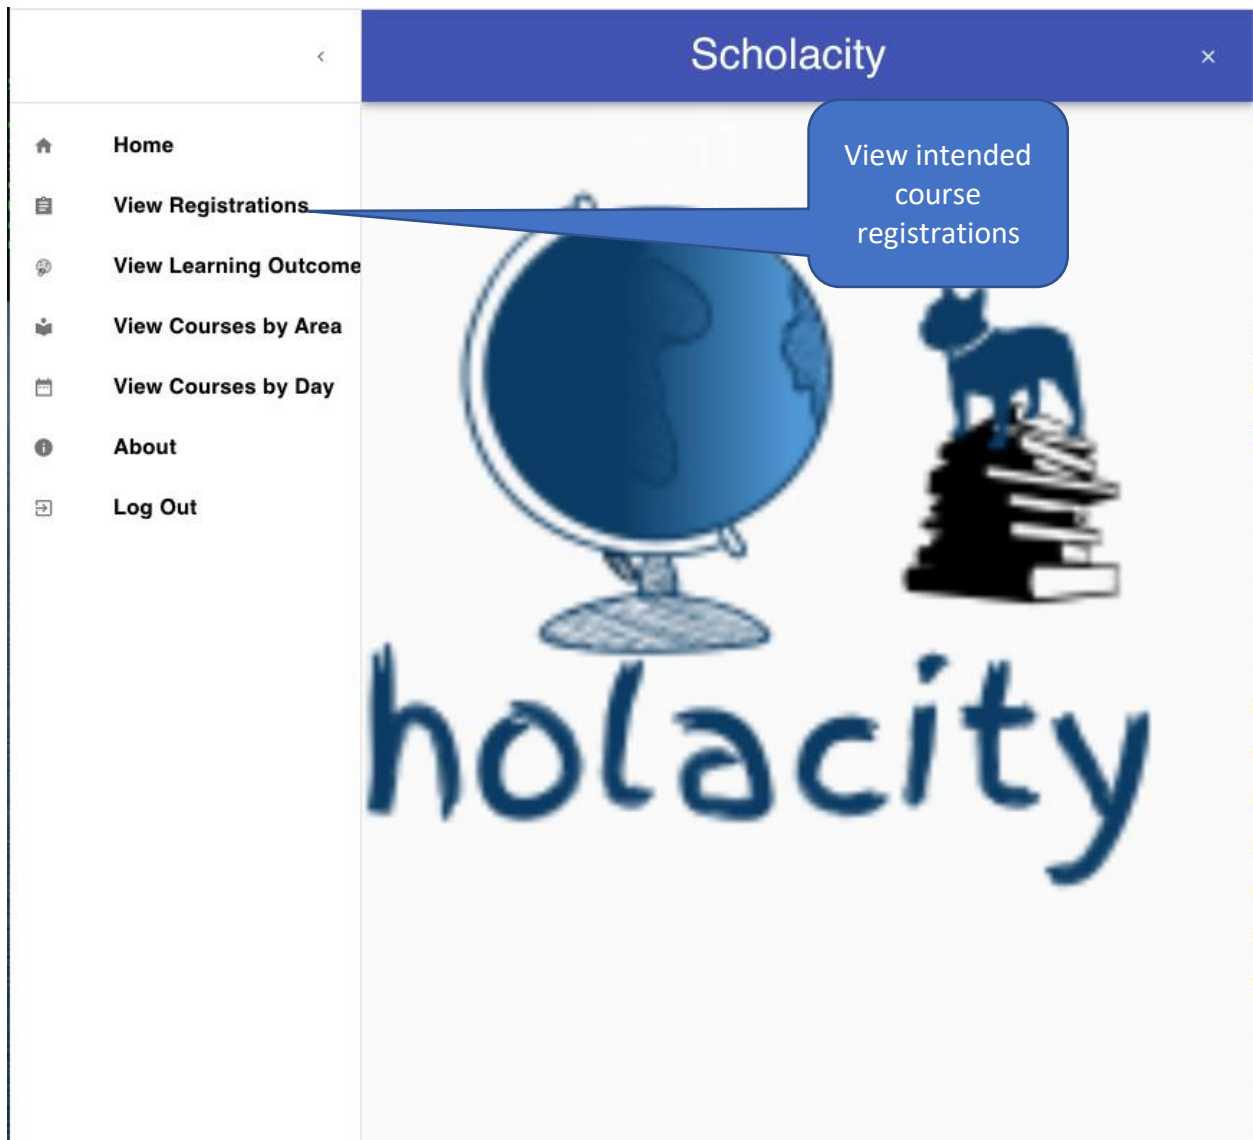

NAVIGATING THE MENU

Now that you have successfully logged in to the Scholacity Web Application, you must select the Menu to navigate the system.

The Administrator may view the intended course registrations, as represented by the aggregate contents of all users' "Registration Planner". These are courses that have either been recommended by the application or directly selected by the user and moved into shopping basket or registration planner.

VIEWING PLANNED REGISTRATIONS

An Hour with Amy Beach

An Interdisciplinary Look at the Confederate Monument Debate

Anne Frank - Her Diary and Beyond - 5 Sessions

Archaeology of Gulf Islands National Seashore

Florida's Current Economic and Legislative Outlook

Triumph Gulf Coast is the organization charged with allocating \$1.5 billion in BP oil spill economic damages in the eight Northwest Florida coastal counties. Dr. Harper will discuss Triumph's activities and current Florida legislative actions and initiatives, as well the current economic outlook for the State and Nation. Dr. Rick Harper, Retired UWF Professor of Economics, is currently an Economic Adviser to Triumph Gulf Coast (and past economics adviser to the Florida Senate).

Medicare Fraud and Scams

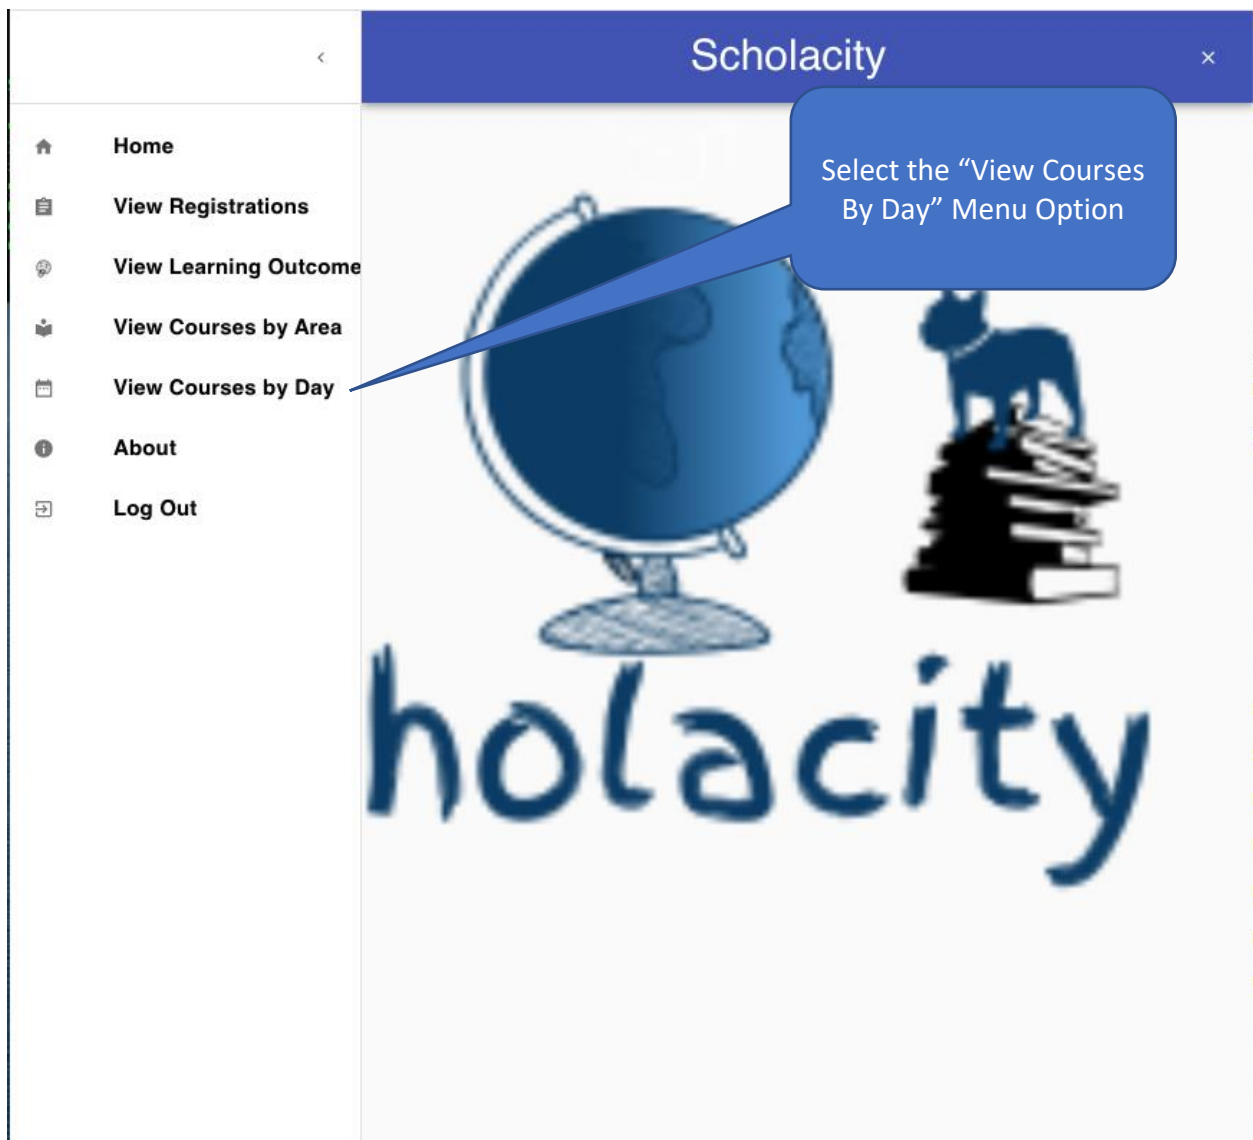

Medicare fraud amounted to 90 billion dollars in 2019! Senior Medicare Patrol empowers seniors to prevent fraud. Marti Hearn, SHINE-SMP Liaison, is responsible for the SHINE and SMP program in four counties in Northwest Florida. She will discuss the latest Medicare fraud cases that are rocking the nation and how seniors can avoid being an unwitting victim. She will also discuss scams that have popped up during the COVID-19 crisis and how to protect yourself from the scammers ultimate goal, identity theft. The SHINE-SMP program is funded by the federal government through the Department of Elder Affairs in the State of Florida and offers free, unbiased Medicare counseling.

Zoom Café - Session #1

Welcome to the Zoom Café Session #1! This Zoom meeting is an opportunity for you to casually try out Zoom. Whether you are a first-time participant or a seasoned user, this no-pressure Zoom meeting is your opportunity to get comfortable with the virtual meeting platform. Before you join class, please make sure your internet connection is stable, your camera and microphone are working and that you are in a video-friendly setting. Grab a drink, perhaps some wine, and click the Zoom link to begin. We will be going over other tools and general practices during the meeting. Looking forward to seeing you there! (The Zoom link will be provided within your registration email. Save it for future use to join the class.)

Transforming Your Life through WELLthier Living™ - 8 Sessions

ransform your life with a broad-ranging series of Zoom classes designed to help you become the best version of you. Topics will include factors affecting our individual health and well-being, preventive measures for physical and mental/emotional health, global healing practices, integrative health, functional medicine, and new scientific approaches addressing the root cause of chronic illness. The series is hosted by Daralyn Chase, publisher of Natural Awakenings magazine of Northwest Florida, and sponsored by KnowWEwell.com, a new national platform where visitors can find peer-reviewed information on a vast array of subjects related to regenerative whole-body health, be matched with

LOGGING OUT

These screen captures and callouts illustrate everything you can do with the Scholacity Web application for this experiment. Additionally, there is a brief description of the main menu options in the “How To Use” menu option.

Thank you again for your participation, and if you have any issues logging in, or if there are any issues after logging in please contact Ms. Robinson at the Leisure Learning Center.

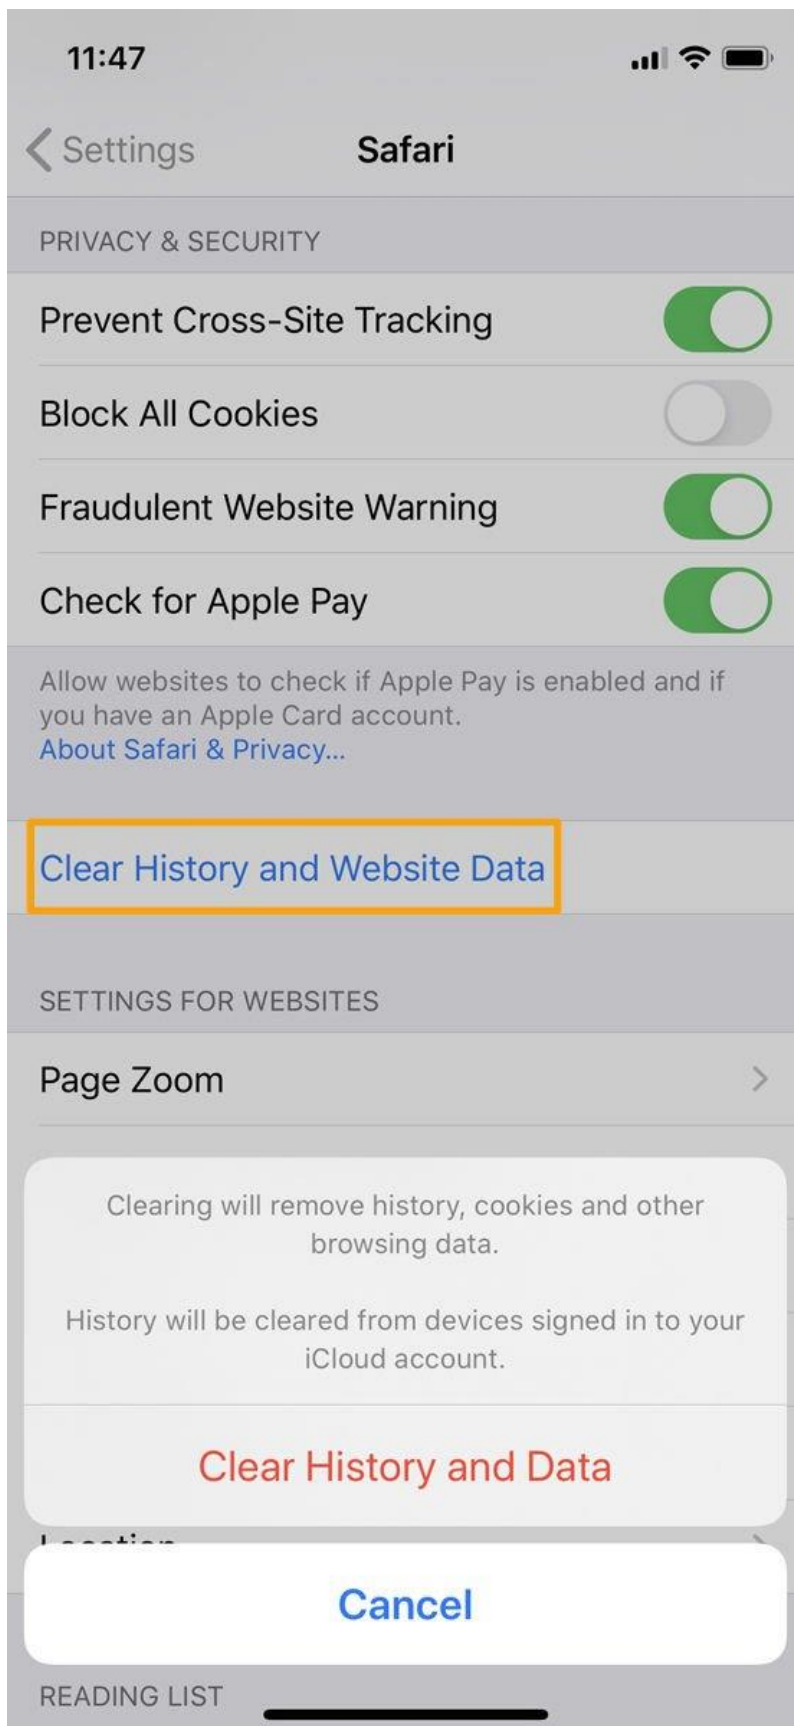

Appendix A

How to clear the cache on iPhone or iPad

Deleting the cache in Safari is simple.

1. Open Settings and scroll down to the fifth group of options (starting with Passwords & Accounts). Tap Safari.
2. Scroll down and tap 'Clear History and Website Data'.
3. In the popup, tap 'Clear History and Data' to confirm.

Note that this will log you out of any websites you've currently signed into.

Appendix B

How to clear the cache on an Android Device

1. Open the Chrome app on your device.
2. Tap the three-dot icon, found at the top right, to open a dropdown menu.
3. Tap **History**, then **Clear browsing data**.
4. At the top, choose a time range. To delete everything, select All time.
5. Next to "Cookies and site data" and "**Cached** images and files," check the boxes.
6. Tap **Clear data**.
